GLOBAL MANUFACTURER SPECIALIZING IN PREMIUM CUSTOM
CUSTOM CURVED ALUMINUM VENEER & CLADDING PANELS

PROJECTS & SOLUTIONS

Foshan Taxsco New Building Materials Co., Ltd.

ABOUT TAXSCO

COMPANY INTRODUCTION

GLOBAL MANUFACTURER SPECIALIZING IN PREMIUM CUSTOM SPECIAL-SHAPED ALUMINUM CURTAIN WALL PANELS

FOSHAN TAXSCO NEW BUILDING MATERIALS CO., LTD. is located in the Leibian Industrial Zone, Taiping, Dali Town, Nanhai District, Foshan City. We operate a 5,000 m² manufacturing plant with a monthly output of over 20,000 m², and we are certified to ISO 9001 international quality management standards.

The company integrates R&D, design, production, sales, installation guidance, and technical services, specializing in a full range of aluminum decorative materials, including aluminum ceiling panels, aluminum square tubes, aluminum veneer panels, aluminum honeycomb panels, carved panels, window grilles, louvers, and ceiling accessories.

TAXSCO SERVICE TEAM

GREAT ACHIEVEMENTS COME FROM UNITED TEAMWORK

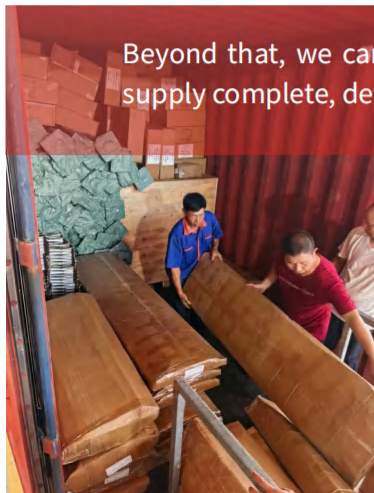

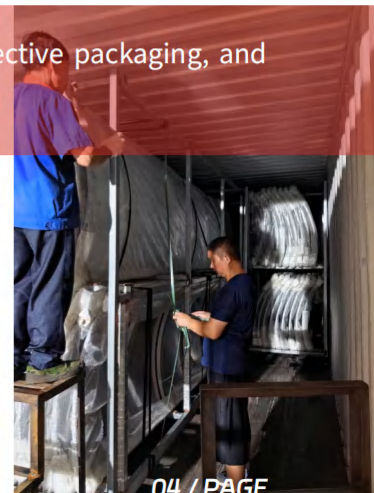

We boast a roster of senior designers with extensive professional expertise in high-end customized aluminum panels, architectural facades and ceiling solutions.

Backed by our seasoned international sales team, we keep constant communication, reply promptly to your questions, track orders closely and share real-time updates across the whole project cycle.

Beyond that, we carry out all-round quality inspections, adopt heavy-duty protective packaging, and supply complete, detailed installation guidelines for every project.

TAXSCO

ORIGINAL DESIGN & DRAWING DELIVERABLES

We offer not only "Design Solutions"
but also an "Integrated Delivery Commitment
From Design To Completion."

HIGH-MATCH CUSTOMIZATION RAPID RESPONSE OPTIMIZATION

No intermediate price markup

Integrated in-house design and production eliminate cost increases caused by outsourcing or subcontracting.

Design for manufacturability

Solutions are inherently producible, preventing impractical designs that are "visually appealing but unbuildable."

Flexible multi-solution options

Provide diverse combinations of styles, materials, and budgets to align with different aesthetic preferences and financial plans.

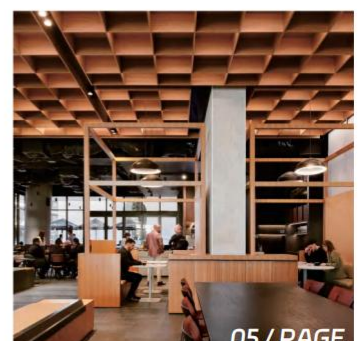

Real-time on-site adaptation

Quickly adjust design details based on field measurement data, ensuring a "one-project, one-solution" approach.

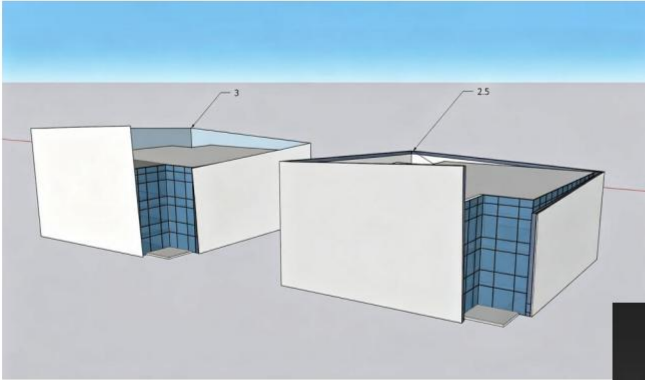

Design-production iterative collaboration

The factory provides direct feedback for process optimization, enabling continuous design improvements.

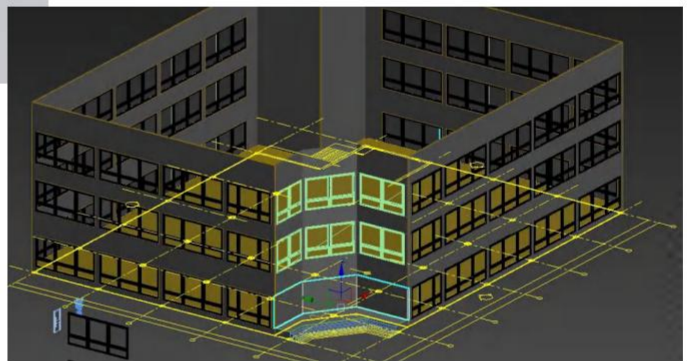

Original Design & Drawing Deliverables

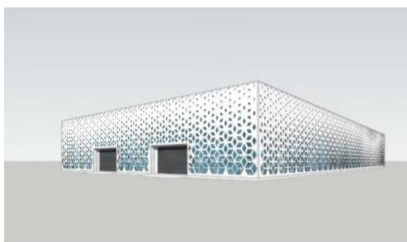

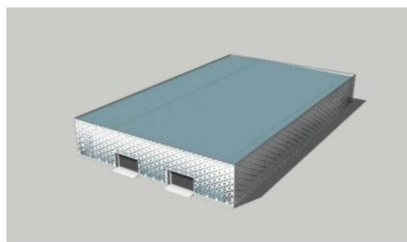

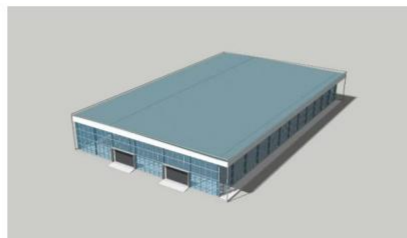

Based On The 3D Models & Drawings
Provided By The Customer

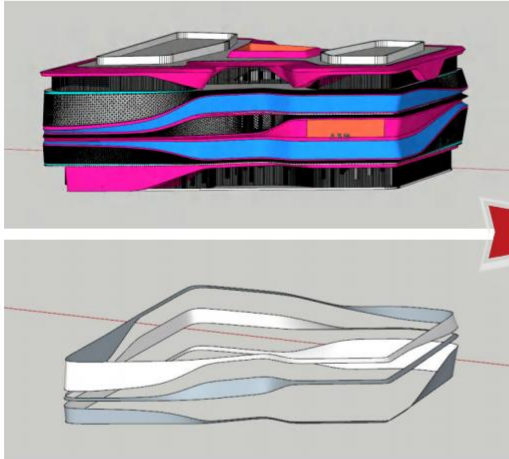

Data Integration

TAXSCO offers diverse **Distinct Design Solutions**
For Metal Building Facades, All Of Which Are Production-ready.

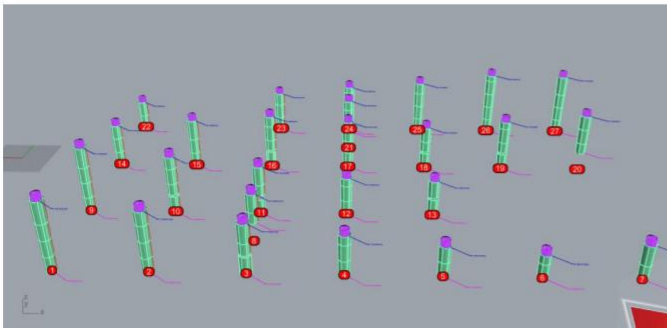

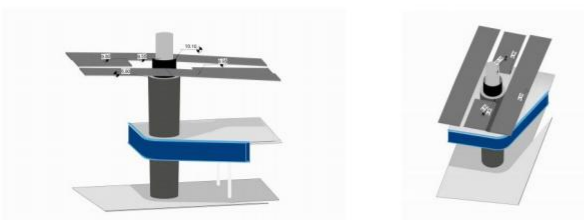

3D PARAMETRIC MODELING

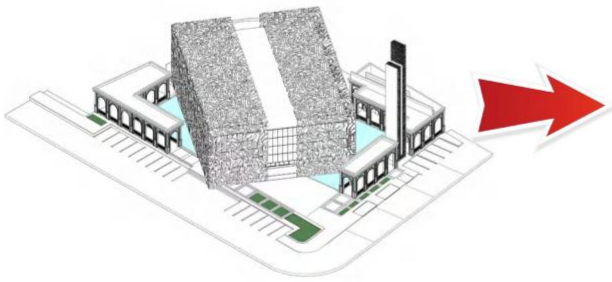

Design Efficiency, Precise Decision-Making

Visual presentation and realistic effect simulation help identify and resolve design conflicts early, reducing rework and revisions.

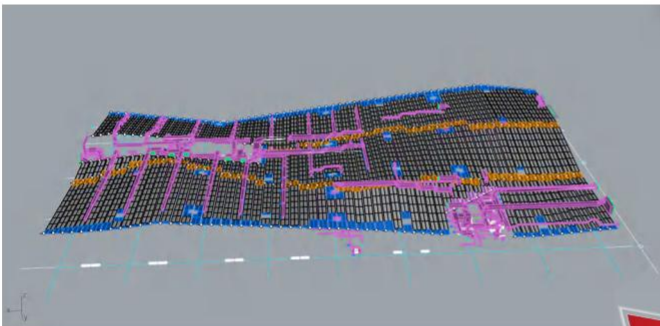

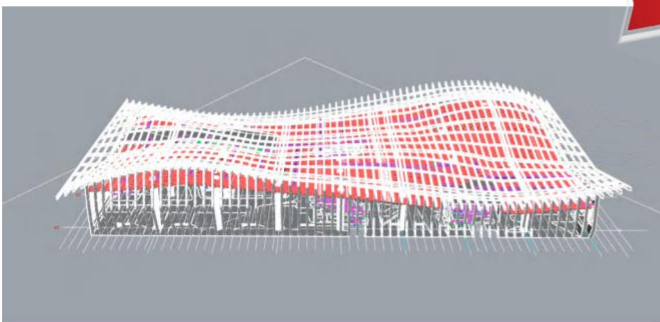

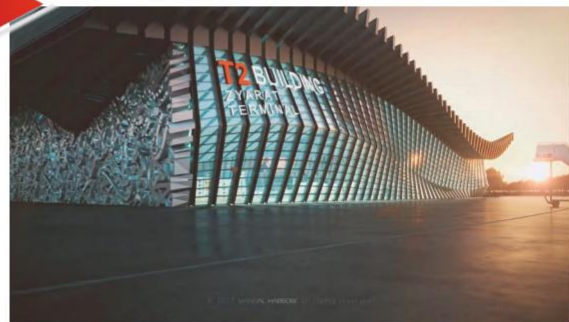

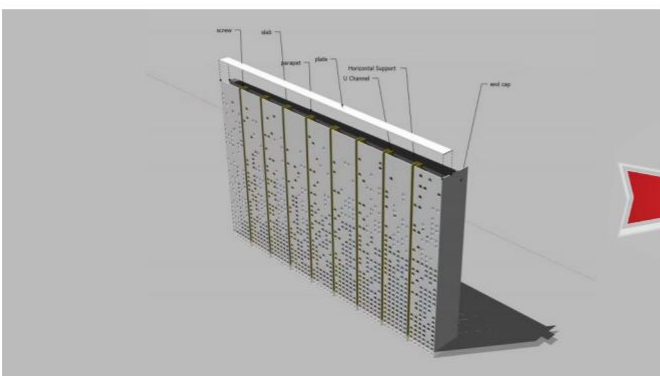

3D PARAMETRIC MODELING

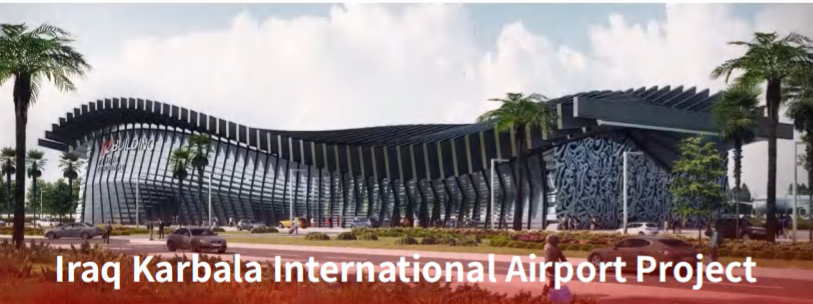

Controlled Construction, Tight Tolerance Control

Models provide precise guidance for on-site construction and prefabrication, enabling millimeter-accurate installation with full oversight of progress and quality.

ON-SITE INSTALLATION GUIDANCE

Standard Implementation, Consistent Quality

Ensure construction processes comply with international standards and original design specifications, address on-site technical challenges, and guarantee consistent quality in global project delivery.

IRAQ KARBALA INTERNATIONAL AIRPORT PROJECT

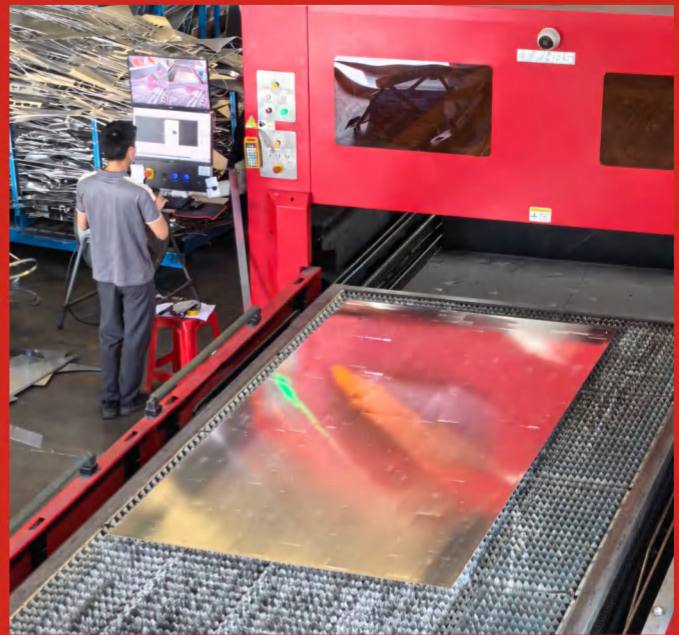

ARABIC CALLIGRAPHY PRECISION MODULAR CLADDING

10,000+ m² Masterpiece • Built for Extreme Climates

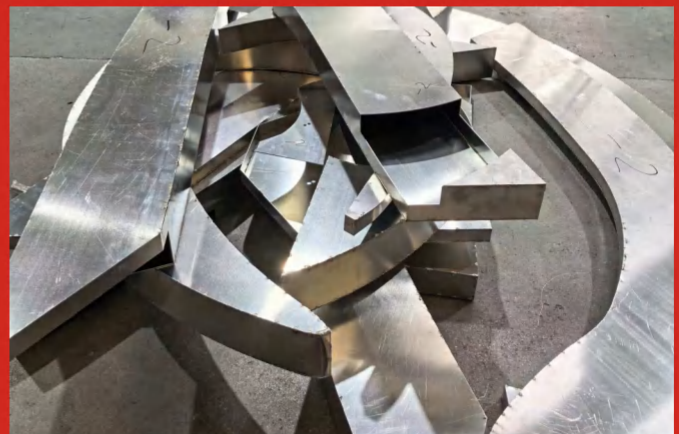

PRODUCTION DETAILS

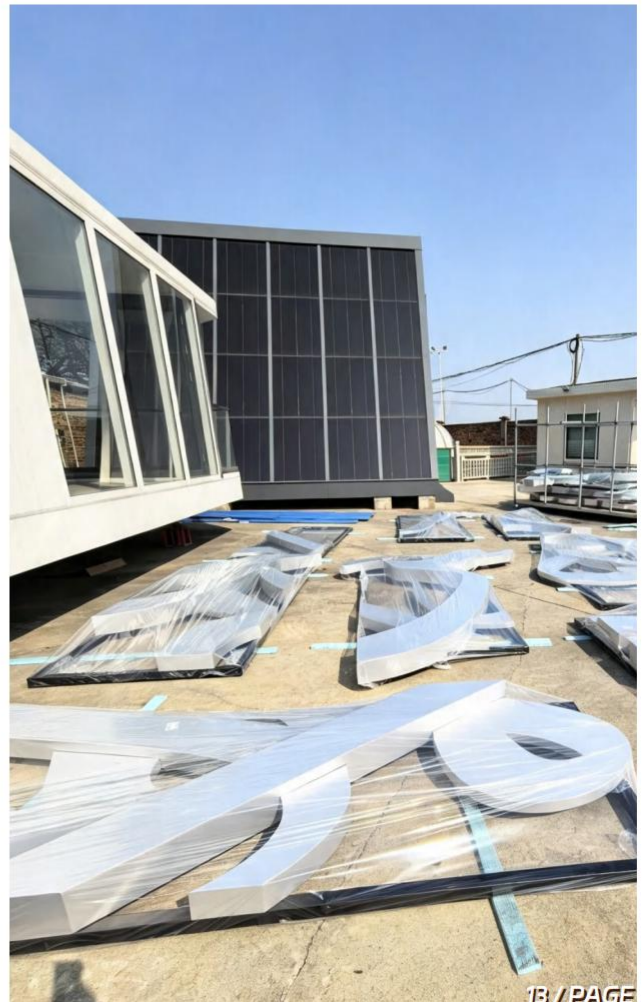

ABOUT THIS PROJECT

- The calligraphy facade wall is split into more than 60 large modular units.
- Pre-assemble letters on each module & mark positions.
- Ship via custom container loading.
- 20-year fade-proof coating, anti-corrosion & high-temp.
- Indoor quality standard for outdoor projects.

TAXSCO —

**MODULAR PRE-ASSEMBLY AND
SMART PACKING FOR SHIPMENT
AND HIGHEFFICIENT INSTALLATION**

NIGHT LIGHTING EFFECT

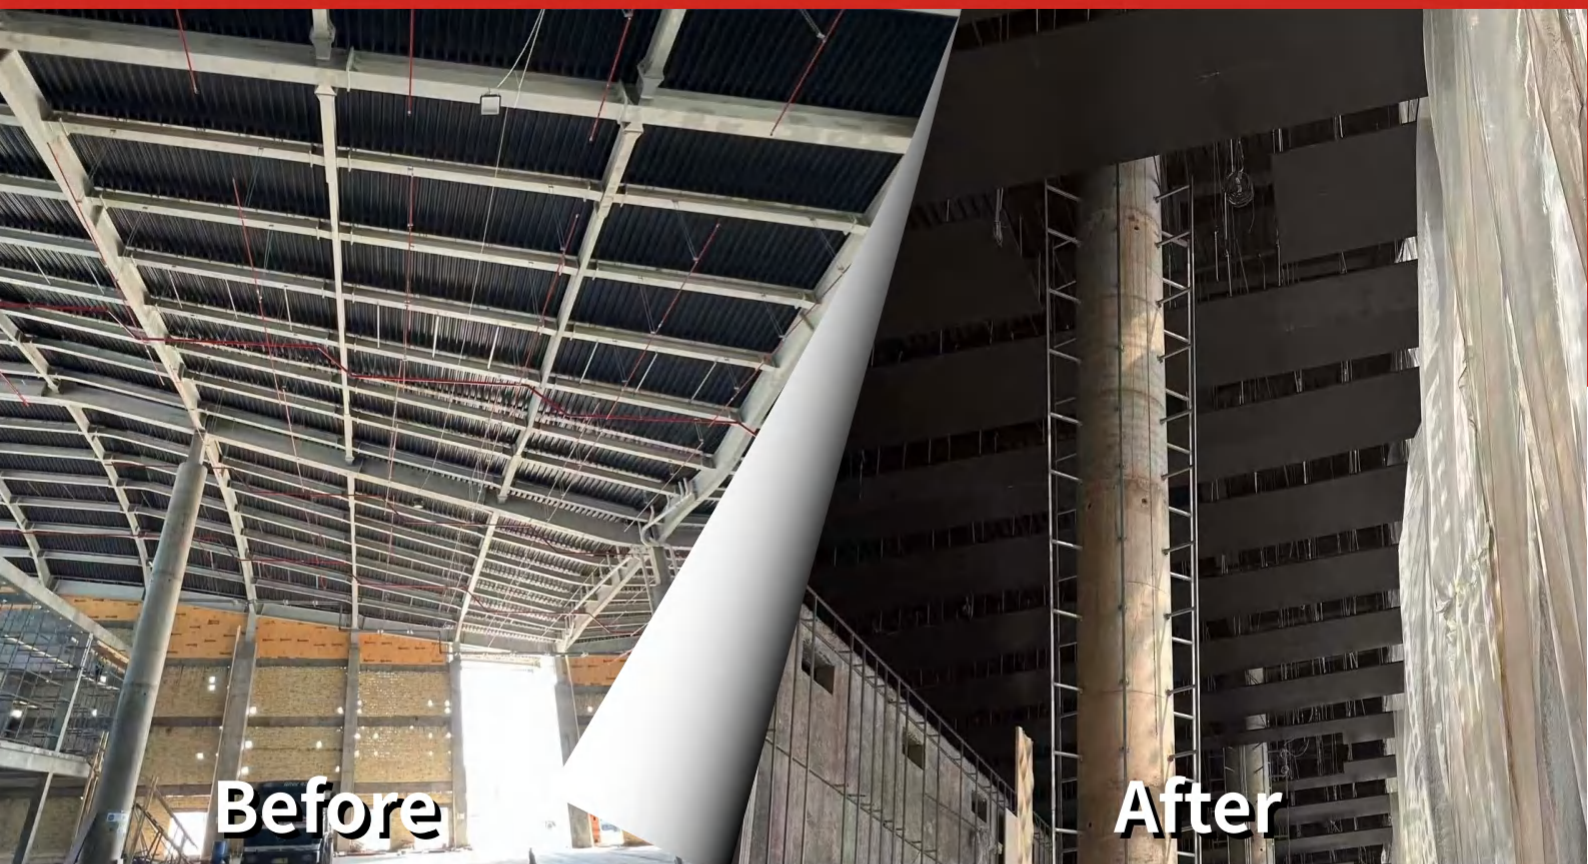

RESULT

- We reserved ample space in the factory for trial assembly.
- Fine-tuned every stroke of the calligraphy.
- Ultimately achieving a perfect presentation of the design.

TAXSCO

ALUMINUM CLIP-INCEILING SERIES

NO SEW AMONG PANELS CAUSE OF TIGHT JUNCTION OF PANELS BY CARRIERS, WHICH HELPFUL TO COVER THE HIDDEN PROJECTS, AND HAVE CHARACTERS OF FIRE AND DAMP PROOFING FLAT IN SURFACE, EDGES OF EVERY PANEL DESIGN WITH FASTENERS FOR FLATNESS AND APPEARANCE. CHOOSE PUNCHING OF SOUND ABSORPTION, THAT WOULD BE BETTER IF STICK A SOUND-ABSORBING PAPER OR CLOTH TO THE BACK OF THE PANEL.

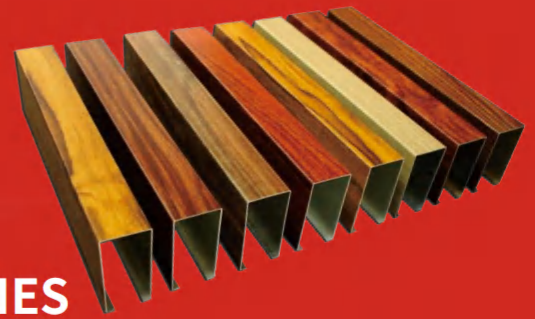

TAXSCO

ALUMINUM LAY-IN/LAY-ON CEILING SERIES

THE DEPUTY BONE VERTICAL AND HORIZONTAL DISTRIBUTION, SCIENTIFIC STRUCTURE, UNIQUE DESIGN, GOOD VENTILATION, EFFICIENCY, FRESH AND NATURAL WITH STEREO FEELING EXCELLENT PRODUCT PERFORMANCE: SMOOTH WEAR-RESISTING, FIRE PREVENTION, MOISTURE-PROOF, DEFORMATION, EASY TO USE, AND THE INTEGRATED A VARIETY OF SURFACE PROCESSING PROPERTY, BUILD A PERSONALIZED LIVING SPACE.

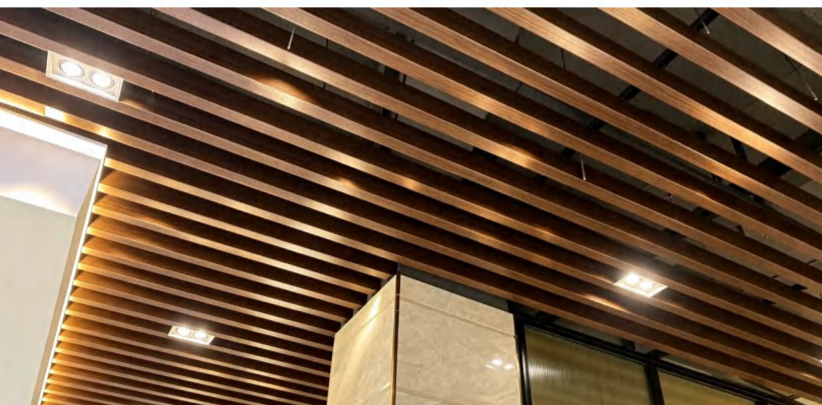

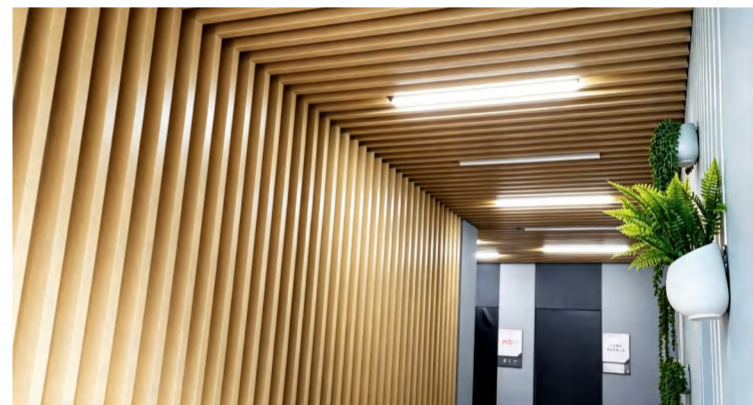

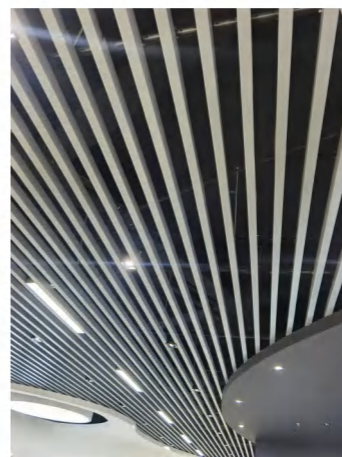

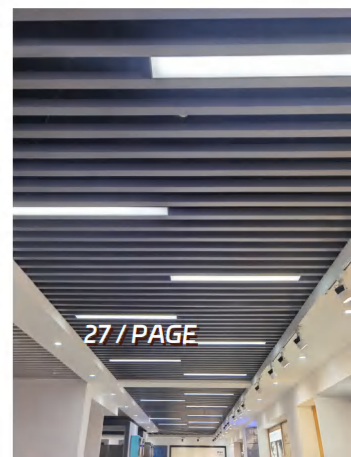

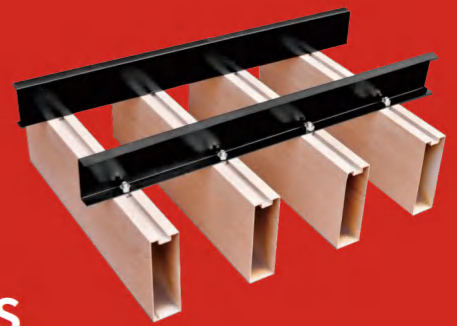

TAXSCO

U-SHAPE SQUARE TUBE CEILING SERIES

THIS DECORATIVE SKY-STYLE CEILING ADJUSTS INTERIOR PERCEIVED HEIGHT AND HIDES OVERHEAD PIPELINES. IT SOFTENS AND EVENLY DISTRIBUTES NATURAL & ARTIFICIAL LIGHT WITH OPEN SIGHTLINES AND GREAT VENTILATION. BOASTING CLEAN LAYERED LINES AND MINIMALIST MODERN STYLE, IT IS SIMPLE TO MOUNT AND DISASSEMBLE, AND HAS GAINED MASSIVE POPULARITY IN THE INTERIOR DECORATION INDUSTRY.

PROFILE SQUARE TUBE CEILING SERIES

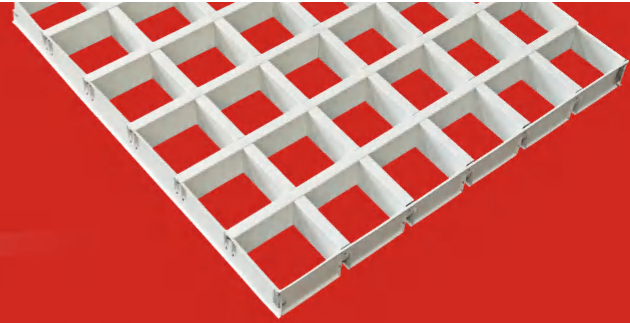

THE ALUMINUM PROFILE SQUARE TUBE CEILING CAN BE MOLDED INTO DIFFERENT SHAPES, TRANSPARENT AND OPEN, STRONG THREE-DIMENSIONAL, NOVEL AND UNIQUE. THE VISUAL HEIGHT OF THE DECORATIVE SPACE CAN BE ADJUSTED, WITH DIFFERENT COLORS, DIFFERENT HEIGHTS OF SUSPENSION, AND DIFFERENT LIGHTING EFFECTS, SHOWING A BRIGHT, ELEGANT AND FASHIONABLE DECORATION STYLE. THE ALUMINUM PROFILE SQUARE TUBE CEILING IS CONVENIENT TO INSTALL, SAFE AND STABLE.

TAXSCO

ALUMINUM GRID CEILING SERIES

GRID CEILING SYSTEM IS OPEN ADORNMENT CEILING WHICH GRID LORD ARTICLE BONE AND DEPUTY BONE CROSS HALF ARTICLE; ON UNIT COMBINATION GOOD VENTILATION EFFECT, HIGH FIRE PERFORMANCE, EASY TO INSTALL, EXQUISITE STRUCTURE, RICH ADMINISTRATIVE LEVELS, OPEN STEREOSCOPIC EFFECT. SOUND-ABSORBING FUNCTION: BECAUSE SPECIAL STRUCTURE IT CAN BE SOURCE CUTTING SECTION, TO SLOW ECHO THE EFFECT OF RESONANCE, PARTICULARLY APPLICABLE TO MANY NOISY SPACE, IT IS ADMIRABLE SOUND-ABSORBING MATERIAL.
